### 3 EYOF Győr 2017

Between 23 and 29 July 2017, the European Youth Olympic Festival Flame will be ablaze in the heart of the city of Győr, since it will host the European Youth Olympic Festival.

In recognition of the city's vigorous and successful sporting scene and comprehensive sports policies and achievements, Zsolt Borkai – Olympic champion in artistic gymnastics; President of the Hungarian Olympic Committee; and Mayor of the City of Győr – accepted the "Sportiest City of Hungary" prize on behalf of the city. This distinction reflected the excellence of sports clubs and athletes in Győr and acknowledged the city's exemplary decision to provide outstanding support for sports. In 2012, Győr won the right to host the summer EYOF 2017.

This EYOF event will see the addition of canoeing to the programme – a discipline that Hungary has long excelled in.

#### 3.1 Introducing Hungary

Hungary considers it very important to be able to host major international sports events, and Győr is an excellent venue to implement them. The public of Hungary is enthusiastically looking forward to the first ever occasion for the Olympic anthem to resound in the country, as the Olympic Flame will arrive in Hungary. Though hosted by Győr, the event unites the entire nation, enjoying the people's unanimous support.

Hungary is a country situated in the Carpathian Basin in East-Central Europe. Its capital is Budapest. Hungary is a member of the European Union, the Schengen Area and NATO. Hungary has an area of 93,093 square kilometres, with an estimated population of 9,879,000.

Hungary has always been a very "sporty" nation. The Hungarian National Olympic Committee was one of the six members establishing the IOC on 19 December 1895. The Hungarian National Team always attended the Olympic Games when politics allowed it, and every time Hungarian participants have been there, Summer Olympic Games heard the Hungarian National Anthem. This is a fantastic legacy that made by our champions, our athletes. There is no shortage of heroes and heroines, Hungarian

athletes deserved 176 gold, 151 silver and 174 bronze, all in all 501 Olympic Medals. Hungary maybe a small country, but Hungary is on the 8th place on the Olympic all-time medal list, and that makes the Hungarians so proud all over the World. Hungary's dream, for such a long time, is to host Olympic events, Summer Olympic Games in Hungary. EYOF could be the first step on this fantastic road.

### 3.2 Sport in Győr

Hungary and the city of Győr are well known for their sport traditions and international results including Olympic medals and club events. Since 2007, the Municipality of the city is spending at least 1% of its budget on developing sport in Győr. As a result, numerous infrastructural expansions happened in the past 10 years, and the city became a worthy, modern home of professional and recreational sport. The „Sportiest city in Hungary" award serves as a recognition of its work and success in sport policy.

The city boasts first division teams in football, handball, basketball and futsal, which are all potentials for the podium every season in the national championships. The signature handball team of Győr, ETO KC is a true contender for winning the third EHF Women's Champions League title in five years. True to its name 'City of Rivers' the kayak-canoe department is among the most successful once at training Olympic athletes, and has produced athletes like the three-time Olympic champion kayaker Zoltán Kammerer and the two-time Olympic champion kayaker Krisztina Fazekas-Zur.

In the past few years – cooperating with the respective national and international federations – Győr organised among others Handball Women European Championship, Basketball Women European Championship, Shooting European Championship and Kayak Marathon World Championship, proving that the city is a great host of high level international events and of the EYOF Győr 2017!

## 9 Security

### 9.1 General Security Planning for the duration of EYOF Győr 2017

Győr, the city hosting EYOF Győr 2017, is a safe, liveable European city where a general sense of public order is widely perceived. The members of the Organising Committee have great experience in managing large-scale national and international sports events, where special attention is invariably paid to the necessary security measures without impinging on the smooth flow of the events.

Within the Organising Committee, the Security Group will take care for the management of safety challenges emerging during the event.

Security tasks will be carried out by the Police, a civil security company, as well as the volunteers supporting their work.

The objective is to minimise the security deficit and guarantee the safety and well-being of participants and visitors alike.

During the event, a Security Centre will operate 24 hours a day, where the Organising Committee, the civil security service, the criminal and public-order decision-makers of the Police, as well as the commanders of special units will collaborate.

The competition and training venues of the EYOF Győr 2017, the support facilities, and the Athletes' Villages are areas separated through closed building segments and permanent or temporary fences, subject to security surveillance 24 hours a day.

The city is prepared to tackle the projected touristic pressure and the hazards this entails

### 9.2 Security Zones

From the perspective of security, three zones have been specified:

#### ZONE 1

Public spaces, traffic routes, and cultural events during the event in the city are accessible to participants and visitors without control. The participants of the EYOF Győr 2017, the citizens of Győr, visiting guests, and tourists may enter these areas without any entrance or control protocol; they can meet, move, and engage in entertainment without limitation.

As a matter of course, enhanced security measures will be implemented in all areas, with special regard to the handling of extraordinary events. In the more popular areas of Győr and the routes and event venues connected to these, police surveillance (CCTV) cameras will operate, with the civil security services also present in certain places.

The traffic of the vehicles used exclusively by the participants will be guaranteed to lead through preferred routes.

This zone includes the Accreditation Centre, whose entrance and internal order protocols belong to the special mission of the security service.
