Relevant Turkish Regulations for Entry and Exit with Rifles and Ammunition

Athletes taking part in the Biathlon competition should fully cooperate with the staff of the frontier inspection station at the airport in examining the rifles and ammunition he/she carries, and should then go through all entry and exit formalities. Personnel specially designated by Erzurum OC will provide on-site assistance to facilitate the checkup of the entry and exit in Erzurum Airport.

Rifles and ammunition of the delegation can only be taken into Turkey from the points of entry in

İstanbul, Ankara and Erzurum and they have to be checked by the staff of the frontier inspection station at the airport. For a fast entry, all participating delegations must provide Erzurum OC with information of Port of Entry, type and quantity of rifles and ammunition before 15 December 2016. By presenting the National Rifles Passport or the Temporary Use Application Form, together with the approved documents issued by Erzurum OC, each delegation should fill in the Declaration Form of Rifles and Ammunition at the frontier inspection station of the points of entry. After the competition, the security personnel, together with the appointed personnel from the delegation, will check the amount of the ammunition and then process a Certification of Ammunition Consumption.

Security personnel from Erzurum OC and designated personnel from the delegations will together pick up rifles and ammunition from the Rifles and Ammunition Storage Center at Kandilli Ski Resort and present the Permit for Rifles and Ammunition Carrying issued by the frontier inspection station to Turkish authorities at the points of border exit.

After their arrival to the designated port of exit, staff at the frontier inspection station will check the types and quantity of rifles and ammunition, and review the Declaration Form of Rifles and Ammunition filled by carriers and the Certification of Ammunition Consumption provided by public security authorities. After filing of the Permit for Rifles and Ammunition Carrying, the Declaration Form of Rifles and Ammunition and the Certification of Ammunition Consumption, the rifles and ammunition can then be taken out of Turkey.

The rifles and ammunition must be stored and taken by both the security staff of the storage center and the person of the delegation together. The OC security staff will be on duty in working hours to ensure the storage and retrieval of the rifles and ammunition during the open time.

The designated person of each delegation can store and take out the rifles and ammunition relying on the accreditation card and both keys, and Security Department of Erzurum OC will register the date and time of storage or retrieval and the accreditation card number of the person. The two parties should co-sign on the form. The unused ammunitions in each training and competition must be returned to the ammunition storage locker.

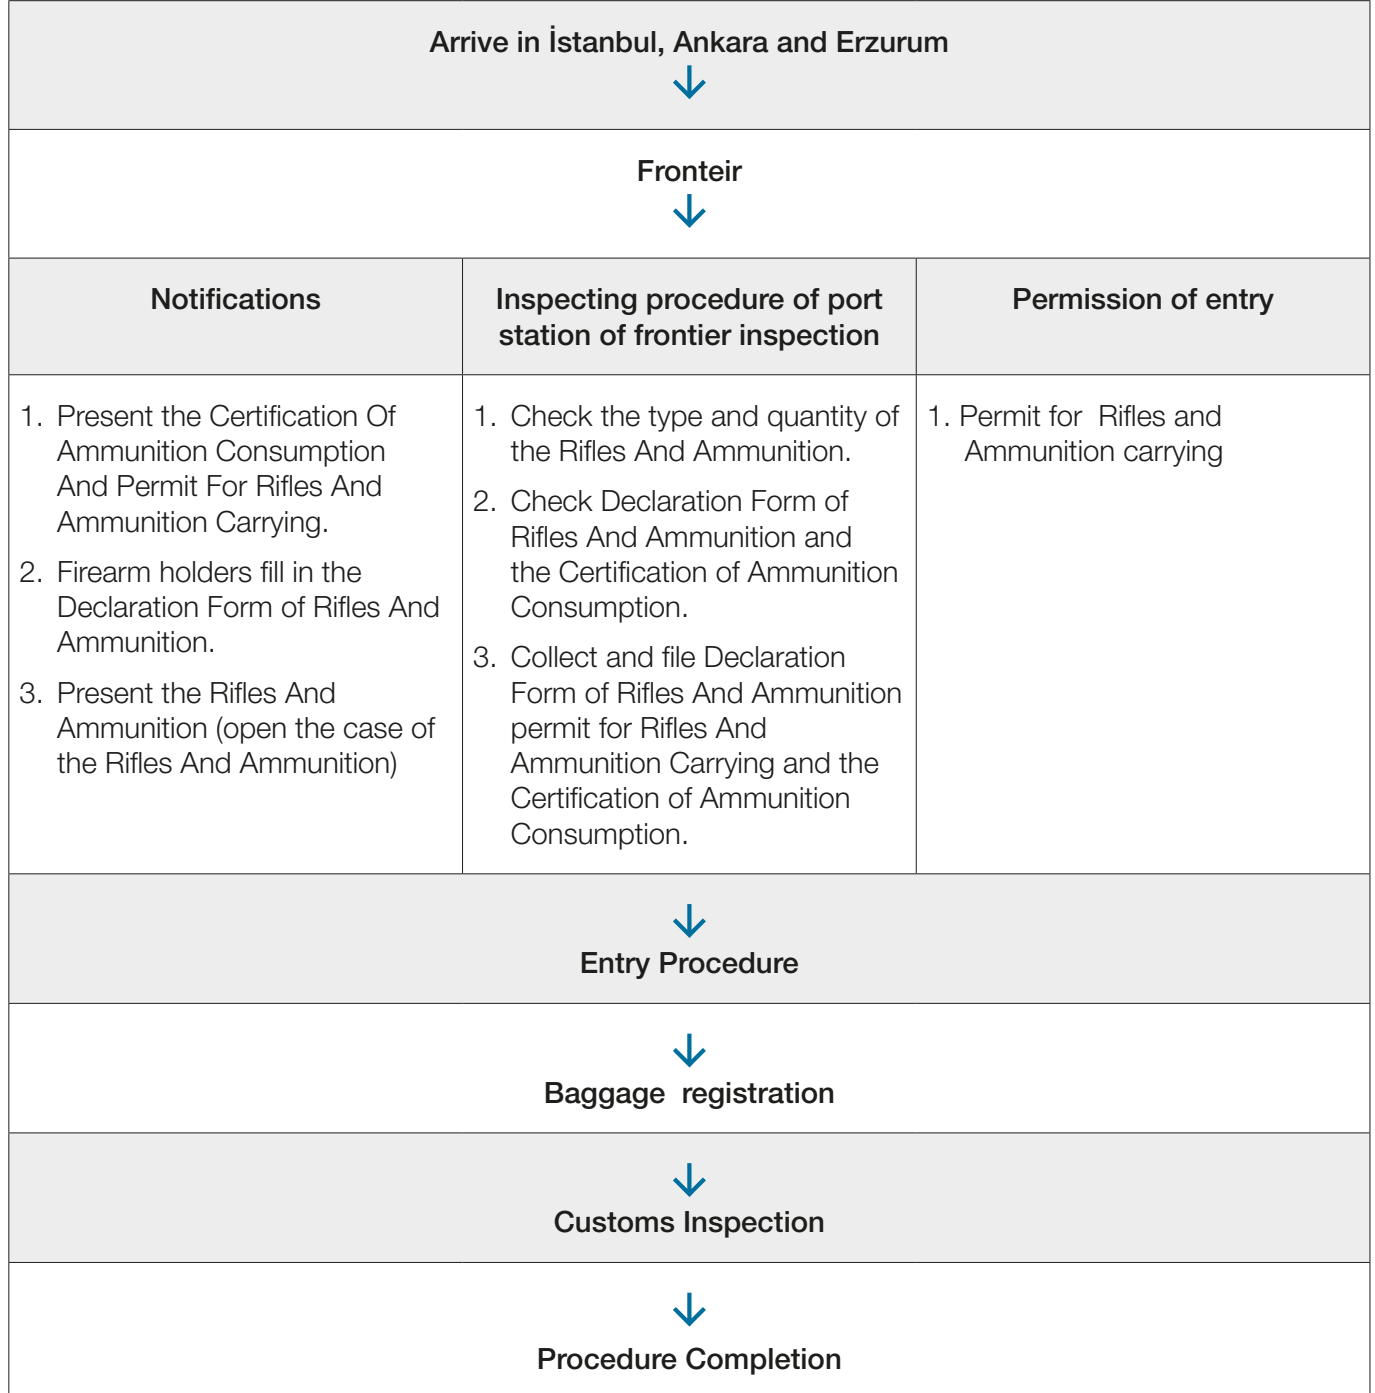

The key of the rifles and ammunition locker will be allocated by the Security Department and certain necessary procedures will be performed. If any loss of the key happens, the delegation leader must send a report in writing to the Security Department for documenting and carry out necessary procedures once again.

The every day open time of the storage center will be announced. During the open time, the athlete with accreditation card and the designated person can retrieve the rifles for maintenance; repairing; firearm test and so on.
